

## LANCASTER.

Rev. Donald McDonald, of Danville, preached at the Presbyterian church Sunday evening.

Mr. J. H. Harris and family, of Turnersville, spent several days with his parents in this city.

T. B. Walker bought a pair of mules from William Palmer for \$275. Capt. T. A. Kiehl sold a pony to Richmond parties for \$60.

The sudden death Friday afternoon of Judge J. S. Robinson was quite a shock to his many friends and relatives. He was 67 years of age and one of the city's most prominent citizens, having filled many places of responsibility. He is survived by a widow. The burial took place at the Lancaster Cemetery Sunday afternoon.

Mr. George D. Robinson and wife and Mr. T. J. Robinson and wife, of Hustonsville, attended the burial of Judge J. S. Robinson. Harry B. Robinson, secretary of the D. & D. Institute at Danville, is at the home of his parents in this city suffering from rheumatism. Mr. and Mrs. R. H. Hason have returned home from a trip in the East. Miss Nell Warren, of Stanford, is visiting her aunt, Miss Jennie Danaher. Hon. J. L. Bruce and daughter, Mrs. Edna Drake, of Danville, visited here Sunday.

James W. Embury, Vernon Richardson and James Reid, of Danville, were in town Sunday. Miss Mary Gill has returned from Cincinnati. Attorney W. L. Whitinghill, of Harrodsburg, is attending court at this place this week. Miss Anna Francis, of Corbin, attended the funeral of her uncle, Mr. J. S. Robinson. Messrs. Ward Pence and Will Campbell came over from Nicholasville for a short while Sunday. Mr. H. D. Herndon is reported as being improved. Mr. and Mrs. H. J. McKibben, of Stanford, were with relatives Sunday.

## A Fantastic Scheme.

Mr. Campbell Siemp, of Big Stone Gap, Va., who proposes to make a new State of portions of Southern Kentucky, Southwest Virginia and East Tennessee, is a native of Virginia, was a Colonel in the Confederate army, and co-operated with the Democratic party prior to 1853. He has just finished his first term in Congress, but was re-elected last November by an increased majority.

The constitutional provision with reference to the formation of new States is found in Article IV, Section 3. It says that new States may be admitted, "but no new State shall be formed or erected within the jurisdiction of any other State, nor any State be formed by the junction of two or more States, or parts of States, without the consent of the Legislatures of the States concerned, as well as of Congress." If it is true that the President has approved the scheme of Mr. Siemp it is possible that the consent of Congress might be obtained, though this is by no means certain. But it would be quite ineffectual without the consent of the Legislatures of Virginia, Tennessee and Kentucky.

The promoters of this plan see in it a chance to elect two more Republicans to the Senate, and some of them may be assumed to aspire to the White House regard it as a good thing for them. But to carry out the plan the consent of the Legislatures of three Democratic States must be had to the creation of another State like Rhode Island to swell the Republican majority in the United States Senate. That these States would consent to their own dismemberment for the purpose of giving Mr. Siemp and Mr. Brownlow seats in the Senate is exceedingly improbable. West Virginia was not to be taken by the Cavalry operation on one State, but the precedent is not likely to be followed.—*Courier Journal.*

## IN MEMORIAM.

On the 12th of March the death angel came to earth to gather jewels for his Master's kingdom and even the little boy, son of Mr. and Mrs. A. J. Rice, was chosen. Father and mother, with almost broken hearts, ween on it will ease your hearts, but do not think the chattering bird is more than 300 or 400 years old. He was promised to be with his children in their trouble. God gave and He has only taken his own. Sleep on sweet Fannie, not in this little bed nor on the mother's breast, but safe in the arms of Jesus. We would not wish him back to this world of pain and suffering, but may the Lord lead us so we will meet him again where there is always happiness with no thought of parting.

He can only brighten or sorrow fade. Death came with friendly care, The opening bud to heaven conveyed. And bade it blossom there.

One who loved him

He was a Confederate veteran and served along with his father and five brothers during the Civil war. Since leaving here he had been engaged in the life insurance business, being one of the successful men in that line. It is a remarkable coincidence that out of a family of seven sons, all have died of paralysis but one and he has suffered from a stroke of the same malady.—*Jessamine Journal.*

## POLITICAL.

Geo. Joseph R. Hawley, for nearly 24 years United States Senator from Connecticut, is dead.

In his St. Patrick's day speech in New York President Roosevelt paid a glowing tribute to the Irish.

The President has announced that he will call an extra session of Congress for the first week in October.

The extra session of the United States Senate adjourned sine die Saturday without taking final action on the proposed treaty with Santo Domingo.

It thus goes over and will be on the calendar when the Senate meets again.

Major William Warner, republican of Kansas City, was elected United States Senator by the Missouri Legislature 15 minutes before that body adjourned sine die, thus breaking the deadlock that had existed since the beginning of the session. Seven ballots were taken during the day, the last one standing: Warner, 91; Cockrell, 83; Nianguahaus, 1. The election was accompanied with great disorder, but when the result was announced the members gathered down, brief laudatory speeches of the several candidates were made and the Assembly adjourned apparently in good feeling.

JUDGE J. S. ROBINSON.

At 3 o'clock last Friday afternoon a shock thrilled every heart in Lancaster and vicinity when it was announced that Judge Joseph S. Robinson had died suddenly of heart trouble, while sitting in his chair in the Citizens National Bank.

Funeral services were conducted at the Christian church Sunday afternoon by Eld. P. M. Tindler and Rev. C. M. Chumley, who spoke fittingly of the many virtues possessed by the deceased, whose life had been an open book, read by the entire community.

Beautiful and fragrant flowers were profusely contributed as tokens of appreciation and as symbols of the peaceful rest which awaited him beyond the grave. A long procession followed the remains to Lancaster cemetery and with sad hearts, saw the tabernacle of clay deposited in the grave to fulfill the decree—dust to dust.

He belonged to one of the largest, most prominent and popular families in Central Kentucky and one with an illustrious and highly honorable ancestry. He was born Jan. 1st, 1838, and in 1854 became a member of the Christian church, being an active worker and a part of all that is good, abhorring all that is evil. In 1863 he was married to Miss Anna Wallace, an estimable, Christian lady, for whom sincere condolence is expressed by everybody. She and three brothers of the deceased, T. J., J. C. and A. C., all highly reputable and worthy citizens, survive him.

Possessed of many sterling traits of character and being very intelligent, honest and places of public trust were forced upon him. He served a term of four years as judge of the Garrard county court and his duties were discharged with marked promptness and ability. After becoming a resident of Lancaster he was elected vice president and a director of the Citizens National Bank, a trustee of Lancaster Graded School and a member of the city council. Sifting all those trusts in a highly acceptable manner.

Truly his family and the community have sustained a heavy loss. A pillar and support of society—a strong and fearless advocate of right, has been taken to the rich reward which is store for him. Such a life should be emulated on account of its virtues. Such a death should be a warning, since it teaches how this well is between time and eternity.

You can rest assured that our Maple Syrup will please your taste. Grid-the cakes are twice as palatable as the Maple Syrup that is properly prepared and unadorned. Our Maple Syrup is made from the purest maple sap—many syrups are made by dissolving maple sugar. Syrup made from maple sugar are not the equal of those made directly from sap—the air deteriorates the syrup value when the sap is first made into sugar. # THE INTERIOR JOURNAL

E. C. WALTON

The theft of the governor's office by the republicans in Colorado is the most shameful political trick since the same party stole the presidency from Tilden and gave it to Hayes. The scheme was worked by Peabody, who contested with Adams for governor before the Legislature. Adams was elected and seated, but by a trade he agreed with the office. Peabody secured McDonald, who ran with him for lieutenant governor, that if he would join forces with him and have the republican Legislature declare Peabody elected, he would immediately resign and let McDonald have the office. To this party to such a deal, but the majority ratified it and Colorado had three governors inside of an hour. Ex-Gov. Adams scathingly arraigns Peabody and his conspirators, but that will not do. He was elected and by the state he should have retained his seat or died in the attempt to hold it.

JUDGE THOMAS H. PAXTER, of the court of appeals, who has for some time been a receipt candidate for U. S. Senator, has announced his candidacy in a card which has the right ring. Judge Paxter is a man of commanding appearance, a judge of splendid ability and of incorruptible integrity and would be a credit to his native State in "the greatest deliberative body in the world." He has held many offices, including that of Congressman two terms, and is the great success, having never been defeated in any political aspiration. His friends say that in the race for the U. S. Senatorship he will make his record and send the Hon. Joseph Clay Stiles Blackburn back to his beautiful home in Benson Woodford.

INSTEAD of having his name set in cold, every day type, Mr. John Warner, of South Dakota, has had his name handed down to posterity in letters of gold and pictures of silver. Mr. Warner was drawing a pension for disabilities alleged to have been caused by service in the Civil war, but having recovered his health he has applied to the pension office at Washington, seeking that it be discontinued. The request nearly caused the commissioner to become speechless, but he managed finally to say that in regard to his health, Mr. Warner had apparently lost his reason and will probably be subjected to de lunation inquisition. The case is without parallel and will be watched with interest.

GOV. BOB TAYLOR, waiting around on his aural, because he has the Tennessee Legislature gave him no chance at the U. S. Senatorial prize. His interest in it had been as a prize that a jocosely sometimes carries things too far. He says he is a candidate before the Legislature two years hence to succeed Senator Carmack, but his ambition in that direction is sure to fail of realization. Bobbitt has way to the executive office of the State, but he will find that Legislators are not so susceptible to music as the back woodmen and his fiddle will do him no good in that direction.

To meet the alarming and constantly growing deficit, the republican leaders are said to be seriously considering a tax on coffee and this is the piling party in power ought to damn it forever, but it seems to prosper on it. If a continued deficit is to be provided for why not increase the whiskey and beer tax and leave necessities alone? The answer is easy. The two interests are strong enough to defeat any adverse legislation by the party with whom money counts.

The trouble about our many sided and strenuous president is that he preaches righteousness and practices the arts of the peanut politician. He appointed a Negro collector at New York to open, as he said, that the door of hope to those to race, but now a republican editor in the Empire State walks to the footlights to remark that the only reason Anderson was appointed is that he controls the Negro vote in New York City. It is ever thus.

THE NEW YORK divorce court made a new record Saturday, when it separated 21 couples in three and 47 minutes, or one for every 10 minutes and 45 seconds. Strange to say only 11 children are affected by these divorces. Here are two evils for the president to investigate. The divorce evil is almost as bad as race hatred.

THE prohibition candidates for the Legislature in the Wolfe county district have been indicted in two cases for selling liquor without license and for how guilty he is his prohibition friends will claim that it is a weak invention of the enemy to put him out of business in the political line.

A DISPATCH from Indianapolis says that fugitive Taylor sits with a revolver at hand ready for any emergency. If he will considerably turn the muzzle to the head and tell the other party his friends might hear it said of him that he had some conscience after all.

THE Glasgow Times is moved to suggest: "Now that the Hargies are all landed in jail, will some of our esteemed republican contemporaries please demand the return of W. S. Taylor from Indiana? Don't all speak at once, gentlemen?" Let 'em all speak at once if they will. We are here to keep tab, even though it be a sneeze. The silence that is likely to follow will be of the kind that the dropping of a pin can be heard. There is something of the press seek only the punishment of demerit.

THE republican Legislature of Missouri at last succeeded in electing a U. S. Senator, one Major Warner, who is very little known. The fall from Cockrell to Warner is a back breaker, but any of them is better than Keating, whose, who, let us hope, will now go to his hole and draw his peculiar patronage with him.

AN Indiana judge has just decided that a girl can not be compelled to return a rejected suitor's gifts. But this is not important outside of the Taylor-Pinley harbor. None but a Hoosier girl would keep the presents of a man to whom she had given the g. b.

THE Louisville Herald reports over \$7,000 for the Caleb Powers defense fund. That paper seems to circulate among a class of suckers, who are particularly anxious to be separated from their ready money.

A BUILDING at Washington for offices for Congressmen has been let at \$1,011,000. The outside is to be of marble and the inside of limestone. That's the way the money goes. Pop goes the wassel.

THE Lexington Herald says it has been absolutely fair to the Hargies. From such fairness, good Lord, deliver us. Alas and alack, how some people are given to perversion.

NEWS comes from Zion City that the residents are about to starve out. Per haps it is well. Hunger will bring a man to his senses about as quick as anything we know of.

The coincident occasions of St. Patrick's Day and her 107th birthday were celebrated by the oldest woman in this part of Pennsylvania, Mrs. Mary McKittick, at the home of her son, Luke McKittick, near Uniontown, Pa., says a dispatch.

# CRITERION.

You all know what this means when found upon the HANGER of a man's coat. It means as perfect workmanship as man can perform—the cutting of the garment, the sponging of the goods, the fitting of the linings, the padding of the shoulders, the shape retaining front, the graceful set of the collar. Every point and detail is carefully made and I feel safe to-day in saying THE CRITERION CLOTHING for men is excelled by none. We have our Spring stock in all the latest colors and styles from \$10 to \$17.50.

## MASTIC MIXED PAINT

Can't Be Touched

for painting houses. The reason's plain. Mastic is the purest, therefore the most durable and economical. There is a whole string of "other fellows" claiming "just as good as Mastic" but they don't prove it. Maybe they count. The analysis of Mastic is published. It's made of pure lead, zinc and linseed oil—the most durable kind of paint—and its purity is therefore unquestioned.

As purity means durability, the splendid wearing qualities of Mastic have given it the title of "The Kind That Lasts," and this title is backed up by our absolute guarantee. Mastic is made by PEASLEE GAUBERT CO., Inc. LOUISVILLE, KENTUCKY and we heartily recommend it to your trade.

OUR West End friends should not miss the opportunity of seeing a good show at Alcorn's Opera House, Bostonville, Friday night. Editor Cuthbert Powell, of Kansas City, leaves of Commissioner Garfield nothing but the by-products. He shows by facts and figures that Commissioner Garfield did not know what he was talking about when he reported that the packers made a profit of only 99 cents a head.
